THE MANHATTAN BEACH CITY COUNCIL HEREBY ORDAINS AS FOLLOWS:

SECTION 1. The City Council hereby finds, determines and declares that:

- A. Tobacco use and exposure to secondhand smoke cause death and disease and impose great social and economic costs; and
- B. More than 440,000 people die in the United States from tobacco-related diseases every year, making it the nation's leading cause of preventable death; and
- C. The World Health Organization estimates that by 2030, tobacco will account for 10 million deaths per year, making it the greatest cause of death worldwide; and
- D. The United States Environmental Protection Agency has found secondhand smoke to be a risk to public health and has classified secondhand smoke as a group A carcinogen, the most dangerous class of carcinogen; and
- E. Secondhand smoke is responsible for an estimated 38,000 deaths among non-smokers each year in the United States, which includes 3,000 lung cancer deaths and 35,000 deaths due to heart disease; and
- F. 87.9% of non-smokers showed detectable levels of cotinine (a metabolite of nicotine) in their blood, the most likely source of which is secondhand smoke exposure; and
- G. Secondhand smoke exposure adversely affects fetal growth with elevated risk of low birth weight and increased risk of Sudden Infant Death Syndrome in infants of mothers who smoke; and
- H. Secondhand smoke exposure causes as many as 300,000 children in the United States under the age of 18 months to suffer lower respiratory tract infections, such as pneumonia and bronchitis; exacerbates childhood asthma; and increases the risk of acute, chronic, middle-ear infections in children; and
- I. The total cost of smoking in California was estimated as \$475 per resident or \$3,331 per smoker per year, for a total of nearly \$15.8 billion in smoking-related costs in 1999 alone; and

J. Cigarettes, cigars, pipes and other smoking materials are the leading cause of fire deaths in the United States, causing an estimated 31,200 structure fires and 830 deaths in 2001; and

K. 84% of Californians are non-smokers; and

L. There is no Constitutional right to smoke; and

M. The U.S. Food and Drug Administration conducted laboratory analysis of electronic cigarette samples and found they contained carcinogens and toxic chemicals to which users and bystanders could potentially be exposed; and

N. California law declares that anything that is injurious to health or obstructs the free use of property so as to interfere with the comfortable enjoyment of life or property is a nuisance; and

O. Local governments have broad latitude to declare nuisances and are not constrained by prior definitions of nuisance; and

P. It is the intent of the City Council in enacting this Ordinance, to provide for the public health, safety, and welfare by discouraging the inherently dangerous behavior of smoking around non-tobacco users; by protecting children from exposure to smoking where they live and play; and by protecting the public from nonconsensual exposure to secondhand smoke.

SECTION 6. CEQA Finding. The City Council hereby finds that this Ordinance is exempt from the requirements of the California Environmental Quality Act (“CEQA”). To the extent that the Ordinance applies to Places of Employment, it

regulates working conditions by ensuring that employees and volunteers are not exposed to the harmful effects of second-hand smoke and is therefore categorically exempt from CEQA pursuant to Section 15324(c) of Title 14 of the California Code of Regulations ("CEQA Guidelines"). The Ordinance is also exempt from CEQA in its entirety pursuant to CEQA Guidelines Section 15061(b)(3) because it can be seen with certainty that there is no possibility that the Ordinance may have a significant effect on the environment. The Ordinance will have no adverse environmental effects because it will reduce the public's exposure to the harmful effects of second-hand smoke.
